To,

Whom It May Concern

It gives me immense pleasure to recommend Kushagra Goyal for the NUS Overseas College programme. In the capacity of Chief Executive Officer at EazyBottle Private Limited, Bangalore, I have known Kushagra for almost three months now. Kushagra worked for me as a Software Engineering Intern from May 25, 2017 to July 31, 2017. His responsibilities included improving the user-interface/user-experience and addition of new features to two cross-platform mobile applications using a variety of technologies.

During the course of his internship, Kushagra proved himself to be a dependable intern and a hard worker with solid problem solving and technical skills. Kushagra is a quick learner. At the start of the internship, I offered him to work on our website since he had prior experience in that area and no experience with mobile applications and the technologies we use for that. However, he was determined to take up the challenge of learning new technologies and was certainly successful in doing so.

I was always impressed by Kushagra's ability to manage his time well and complete the work assigned to him on time. Apart from the internship, he had a college project to do during the summer which took quite a lot of his time. However, Kushagra not only met deadlines but also he was confident and creative in his work and his code was commendable. Although he is an independent learner, Kushagra sought help and guidance whenever he needed it. He communicated his doubts well and was never afraid of making mistakes.

Overall, Kushagra is a talented, hard-working individual and he would be an asset to have on any team. His profound enthusiasm coupled with his aspiration to excel in the field of Computer Science, motivate him to work hard. Keeping his numerous qualities in mind, I strongly recommend his candidacy for the desired internship program. I believe the NUS Overseas College programme will be a valuable experience for Kushagra and I am sure he will make the best out of this stint.

Yours sincerely,

Ashwa Kolkar
