NUS Overseas College (NOC) Program Office
National University of Singapore
21 Heng Mui Keng Terrace, Level 5
Singapore 119613

Dear Sir/Madam,

LETTER OF RECOMMENDATION

It is my pleasure to recommend Kushagara Goyal for the NUS Overseas College program. Kush has interned at VersaFleet since December 2017. We found him to be a self-motivated learner who is determined and enthusiastic about all tasks assigned to him. He consistently explores new ways to solve problems and does not hesitate to ask questions.

I understand his internship is self-initiated as he is looking to gain experience and exposure. His internship scope primarily related to software engineering, where he was tasked with and volunteered to work on several important computer science problems. During his stint, Kush did a remarkable job, demonstrating meticulousness and strong follow-up in his work.

Kush is also a strong team player and is easy to work with. He learns fast and can handle multiple tasks concurrently, inspiring respect and cooperation from the development team.

I highly recommend Kush as a strong candidate for the NOC program and would be happy to provide further supportive reference via my contact details copied.

Yours Sincerely,

Shamir Rahim (NCBV Jan'06)
